## Module 6 – Lesson 3: The Alliance & The Pleiadian High Council

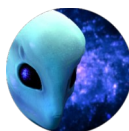

The main focus for the rest of the course is going to be connecting in with the guidance of the ETs and sharing the information they want to share.

The past few days has seen an increase in direct communications from a group I'm currently referring to as the Pleiadian High council.

They come through to me in images similar to this artwork of Ashtar the Pleiadian - Though the being I'm connecting with is female and holding her hands in a lower position around the solar plexus.

This high council represents many ET civilisations here to assist Earth through this spiritual transition and movement towards Open Contact!
